Baker University Concurrent Credit Classes are college classes taken by qualified high school students that concurrently count toward high school graduation and college degree courses. Partner high schools work with Baker University to seek approval for particular instructors and courses within their school. Baker University and the high school both transcript the students’ grades. Students from a partner high school district who are in an approved Concurrent Credit Class and have a cumulative high school GPA of 3.0 or higher are eligible to earn Baker University credit. Eligible students must be recommended by their high school counselor.
