618 EIGHTH STREET
BALDWIN CITY, KS 66006-0065

To whom it may concern:

Please post the enclosed announcement for the Maxillofacial Prosthetic Technician Training Program.

About the Program:

Maxillofacial prosthetics is a subspecialty of prosthetic dentistry. Trainees learn to create realistic facial prostheses (i.e., eyes, ears, noses) for patients in a paid training program. The trainees will use their artistic talent in a profession that restores facial appearance with custom made facial prosthetics. Trainees will also learn basic dental laboratory technology. The program starts July 1ST and is two years in length.

Qualifications Required:

Applicants should have at least a bachelor degree and be US citizens. Applicants will be judged on their fine art portfolio. The portfolio should demonstrate skills in life drawing, painting and sculpting. Please include examples with a naturalistic use of color. Also, preference may be given to applicants with a science background, health-care background, or basic dental laboratory skills.

Salary:

This is a paid training program at \$18,720 per year with an additional \$3,120 allocated for benefits.

Interested candidates should submit a 35mm slide or photographic print portfolio of 10 to 20 images. Also include your curriculum vitae, two letters of recommendation and college transcripts. Please contact me by telephone with questions and prior to sending a portfolio. (Please do not send irreplaceable materials.)
