UNIVERSITY

# College Credit for Your Student

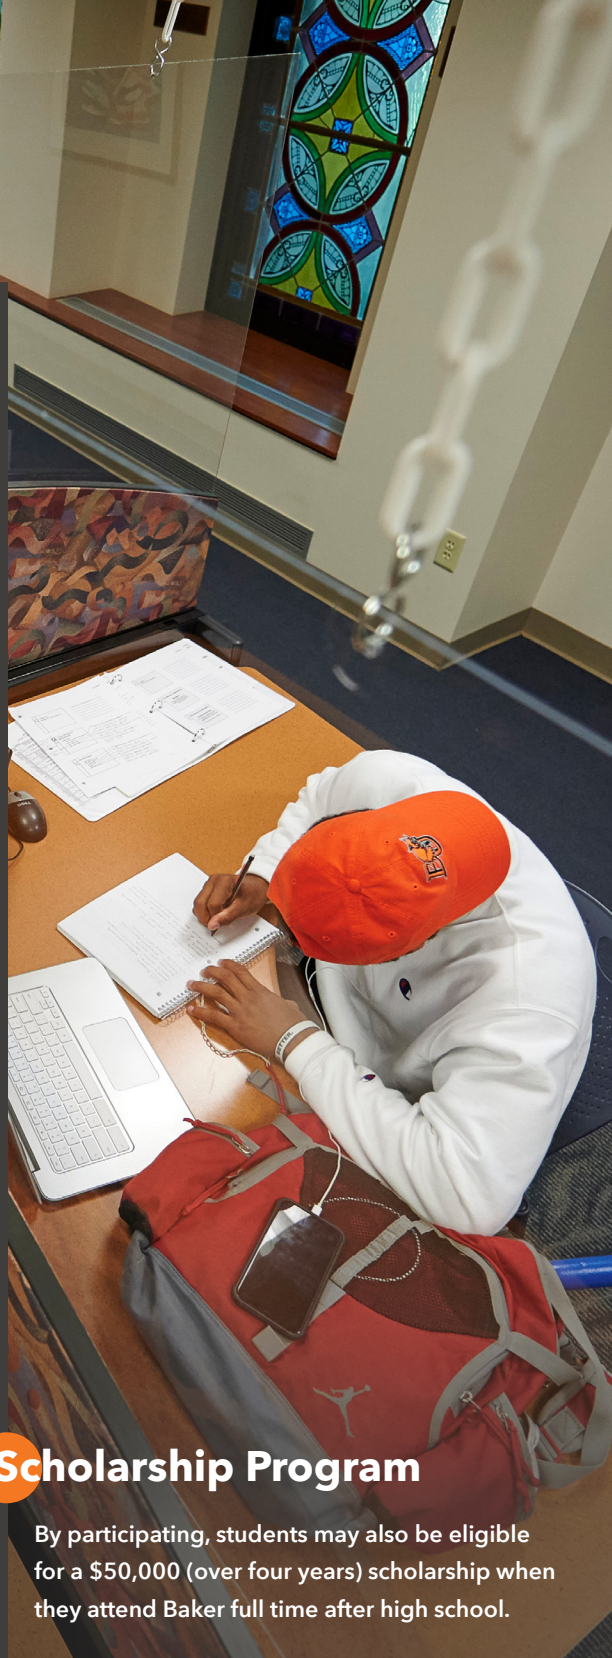

Help your high school student get a head start on their college education and save money on their degree with concurrent credit courses taught by highly qualified instructors either online or in your school.

Baker University aims to educate and nurture students who will go out into the world and change their communities. As part of that mission, we are extending our reach and building a stronger pathway for high school students to jump-start their college education through our concurrent credit program. Students in our concurrent credit program can earn college credit from Baker University and complete high school requirements at the same time.

Students in the concurrent credit program will experience college-level work with layers of support and gain firsthand knowledge about the exciting opportunities at Baker.
